Facial Acupuncture and Massage

In our image conscious society, Facial acupuncture and massage are invaluable skills to keep your clients as naturally radiant as possible using ancient oriental wisdom. An experienced teacher and practitioner of Facial Revitalisation in the US, Virginia Doran is a recognised expert and this highly popular workshop is her only visit to the UK this year!

Common sense tells us that treating the underlying cause of aging and imbalance is preferable to masking the symptoms.

This course covers both theoretical and practical components of facial acupuncture and massage, and practitioners are taught how to specifically affect the face while simultaneously treating underlying factors that contribute to the aging process.

You will learn advanced skills in acupuncture, facial massage and acupressure for the face, how to assess which meridians are involved and the specific points to manipulate the movement of energy in the body according to the individual's needs.

Many of these points and techniques are not taught elsewhere, but are based on Virginia's years of professional experience.

Providing facial treatments is also an effective way to attract new patients, many of whom would not otherwise embark upon acupuncture treatment for health reasons.

The acupuncture and massage course forms part one of Virginia's full Facial Rejuvenation Certification Programme. Full details can be found at www.luminousbeauty.com.
